

St Mary's Primary School together with its faith community will endeavour to inspire the gospel values of faith, hope, love, peace, justice and truth by:

- *Ensuring that each child will develop their full potential, spiritually, intellectually, morally, emotionally, physically and socially in a caring, loving and supportive environment.*
- *Regular monitoring and evaluation of each child's progress.*
- *Building strong relationships between school, pupils, parents and the parish community and neighbourhood to help prepare our children to live harmoniously and with equality of opportunity.*
- *Staff will share their gifts in the fulfilment of these aims for the benefit of the school community and share responsibility for the well being and discipline of all pupils*

It is the vision of this school that all involved will be instrumental in providing a catholic education which sustains each individual's needs for mental, spiritual and physical development by bringing a distinctive standard of care to all involved, building upon the teaching which starts at home.

Maintaining a wide and balanced curriculum which fosters the diverse abilities and talents of all pupils and prepares them for the opportunities, responsibilities and experiences of adult life, forming a caring partnership of co-operation with the parents, parish and local community and throughout affirming and to be seen to affirm the dignity of each individual who is involved in these processes.

Above all this school's vision is team work encouraging all staff and children to share their gifts for the benefit of the school family.
